Dear Sir:

I find that we do not have in the Library here the copy of the Numismatist for July 1905, which contains your article "The Toughra as found upon Coins". A copy of this would be extremely helpful to us in dealing with Turkish objects which contain a toughra, and we would greatly appreciate it, if you could find a copy for our Library or tell us where we might be able to procure one.

Very truly yours,

Joseph M. Upton

Assistant Curator.

Howland Wood, Esq.,
American Numismatic Society,
Broadway and 156th Street,
New York City.
